ILL FROM OVERWORK

NERVOUS PROSTRATION CURED BY DR. WILLIAMS' PINK PILLS.

By Toning up the Blood and Nerves Patient Recovered Weight, Strength and Good Spirit.

When the nervous system is broken down by overwork, or whatever cause, life loses its joy. Not only is the nervous victim a sufferer himself, but he is usually a trial to the whole family. Nervous breakdown is often gradual, appearing at first to be merely an unusual selfishness. Dr. Williams' Pink Pills tone up the nerves in the most direct way, and not only cure minor troubles, serious disorders as well.

Mr. W. W. Munroe, of 16 Hazel Park, Everett, Mass., says: "About four years ago this September I became all run-down from overwork and from confinement to bed during warm weather. For two months I grew steadily worse. I lost in weight and strength, and had no appetite. My memory failed me quite rapidly, and I became in a very state, both physically and mentally, that I could not interest in life, neither in business nor recreation. In my position as foreman in a large manufacturing chemist's establishment in Boston, a good memory is absolutely essential to success because of the immense amount of detail that must be carried in the head."

"I grew very despairing, could not bear to have people meet me, and my friends remarked on my condition. About the middle of December a friend told me one day that he had tried Dr. Williams' Pink Pills and found them reliable. I commenced taking them, and at the end of two weeks the change for the better was remarkable by friends. I continued using the pills until I was thoroughly recovered. I regard them as a fine remedy, and in this statement voluntarily in gratitude to the benefit I received from them."

These pills actually make new blood and have cured such diseases as rheumatism, nervous and general debility, indigestion, nervous headache, neuralgia and even partial paralysis and locomotor ataxia. As a tonic for the blood and nerves they are unequalled.

If you are a sufferer from any disorder of the blood and nerves, write for prospectus of Dr. Williams' Pink Pills have accomplished in cases similar to yours. Every testimonial used by this company is carefully investigated before being published, and is authentic.

Dr. Williams' Pink Pills are sold by all druggists, or direct by mail, postpaid, on receipt of price, 50 cents per box, six boxes for \$2.50, by the Dr. Williams' Medicine Company, Schenectady, N. Y.

Plans complete for big festival. Director Radcliffe Much Encouraged by Interest Taken in Musical Program.

With every detail of the splendid program completed for the inauguration of Richmond's first great midsummer music festival, Director Radcliffe says he feels certain of the artistic success of the enterprise.

It is doubtful if any other city in America will enjoy such a musical feast this summer at such reasonable prices.

The last artist secured for the coming week is George Crampton, the famous English basso, who appears on the program on Monday night, and will sing the celebrated "Carmen" song from the opera "Carmen," accompanied by Rossi's Imperial Italian Band.

The program for Monday night is of a popular nature, including some five selections by Rossi's Imperial Italian Band, and a number of songs by Beatrice Reed, songs by Mr. Crampton, and a special feature will be the presentation of John Luther Long's song, "The Japanese story," "Madame Butterfly," by one of America's most charming impersonators—Jeannette Turner Broomell.

Hands in Charter as Result of Disagreement With State Organization—Meeting in Interest of New Lodge to Be Held To-Night.

As the result of a disagreement with the Virginia Odd-Fellows, understood to refer to an alleged infringement of the latter of its rights under the general law with reference to certain funds, Belvidere Grove of Druids, of this city, the largest grove in the State, has been ordered to resign in other words, withdrawn from the order and disbanded—and a majority of its members will form a nucleus for a new Odd-Fellows' Lodge in Richmond.

Mr. Cocke, Captain C. A. McHugh, Walter R. Staples, ex-Mayor James P. Woods and David P. Cuddey made brief speeches, in which they referred to the disgrace that had been brought on the city by the riot, and declaring that if the Council did not compensate the Greeks for losses, the citizens would do so. They also advocated an increased police force, and encouragement of the military.

A committee was appointed, and brought in a series of resolutions which deplored the conditions which existed last Sunday morning, put those present on record as determined to resist any further lawlessness, and requested the City Council after investigation to pay the claim, and advocated an increase of the police force. SENATOR BURTON QUILTS COMMITTEE

To Give Up Chairmanship That He May Devote Attention to Inland Waterways Problem.

By WALTER EDWARD HARRIS. WASHINGTON, D. C., July 18.—It is learned that Representative Theodore Burton, of Ohio, the veteran chairman of the Committee on Rivers and Harbors, will resign that position at the next session of Congress, and that Representative Acheson, who is the next Republican on the committee, will probably succeed him.

The resignation of Mr. Burton becomes a matter of more than ordinary importance in view of all that is behind it. It is authoritatively stated that he has been unable to reach a settlement with the Senate on the matter of the river and harbor bill, and that he has been unable to reach a settlement with the Senate on the matter of the river and harbor bill, and that he has been unable to reach a settlement with the Senate on the matter of the river and harbor bill.

Mr. Roosevelt desires Mr. Burton to devote his energies and time to evolving more comprehensive schemes of river improvement. The latter is recognized as the leading authority on the subject of inland waterways, and he holds to the belief that one of the surest ways to check the power of the railroads and to correct the growing out of improper management of railway corporations is to develop water competition by improving our rivers, making them navigable for freight-carrying craft.

This is understood to be the view of the committee, and it is urged upon Congress the wisdom of legislation to the effect indicated. Mr. Roosevelt will manifest his deep interest in the Waterways Commission by making a trip down the Mississippi with the Waterways Commission this fall, and will urge every effort to give the strongest impetus to the movement for water competition with the railroads.

QUIT WHITE BREAD Could Not Get Strength From

A Yorketate minister, who is interested in the spiritual fare of his congregation, but in his physical well-being, says:

"I can now do an immense amount of work and feel no fatigue. Nuts are a great help in this regard. I have had a lot of nuts lately, and I am using Postum Food Coffin in its place."

"Myself and family are greatly improved in health. We had abandoned the use of white bread. Up to the time of our change, we had changed their diet on my recommendation. It is gladly given because I know, from personal experience, whereof I speak."

It is a well-known fact that white bread is almost entirely composed of starch and this is difficult to digest by many people particularly those who have weak intestinal action. The result of the use of refined white bread is a lack of brain and nervous power to do mental work and also creates intestinal troubles; hence the excess of the starch ferments in the intestines and makes the condition known as flatulence.

Nuts food contains refined starch, but in a predigested form. That is, it is transformed into grape-sugar in the process of manufacture, and delivered in its package in a form that is immediately assimilated without hard work of the digestive organs.

The food also contains the delicate particles of phosphorus which combine with a man's food by nature to make a gray matter in the cells of the brain and nerve centers throughout the body in order to give strength and ability to stand long and continuous work. There's a Reason. Read "The Road to Wellville" in page.
